ABOUT EFRY HEALTH CENTRE:

In September 2023, the newly established EFry Health Centre emerged as a purpose-built facility in North Surrey. This clinic embodies innovation and multidisciplinary approaches, dedicated to offering comprehensive, holistic care to vulnerable women and children who live in deep poverty and may have complex healthcare needs.

To assist patients in building healthy futures and stable lives, the Centre brings together a primary care team with mental health, pharmacy, allied health, dentistry and nutrition in a gender-focused, trauma-informed, culturally safe environment. It also provides patients with direct pathways to the spectrum of social service supports offered by the EFry and its community partners. As part of the fully integrated care team, you will be supported in operating at the top of your license, providing whole-person care that will help change lives for the better.

The Nurse Practitioner will support patients in the maintenance of their health by diagnosing medical conditions, administering treatments, and providing follow-up care to patients. It is the goal of the organization to ensure all patients feel safe, valued, respected, and cared for as they access health care services. Nurse Practitioners will be tasked to demonstrate improved access to primary care and quality of primary care for our population of vulnerable women and children.

SCOPE OF PRACTICE:

The Nurse Practitioner will provide full scope of services that would be commensurate with the breadth and depth of professional services provided by a full-time full-service, Nurse Practitioner, for the care of its patients and the health of the community within which
